A BRIDGE GAVE WAY.

Sunday at the Paris Exposition Is Marred by a Calamity.

NEARLY FIFTY PERSONS CRUSHED.

Structure Fell With a Fearful Crash Upon Gay Promenaders in the Street Below—Killed and Injured.

Paris, April 30.—An accident within the exposition grounds caused the death of six persons and the injury of 40. A temporary bridge gave way.

The accident threw a pall over the happiness of an immense throng who had profited by the magnificent weather to visit the exposition. Sunday's was probably the record attendance. Not merely the interior of the grounds, but the precincts also, were crowded, and the concourse was particularly great along the Avenue De Suffren, which forms the northern boundary of the grounds. Here is situated a big side show, the Celestial Globe. A foot-bridge, on which the finishing touches were being put, crosses the Avenue De Suffren, connecting the side show with the exhibition. It was constructed of wood. Strangely enough the bridge had been condemned in the morning as unsafe by the exposition authorities. The public was therefore not allowed to go upon the structure, and in this way a disaster even more terrible than that which occurred was averted.

The gay crowd was passing along the avenue and some hundred or more persons were walking beneath the bridge, when suddenly an ominous crash was heard. Before those underneath could turn aside the structure fell with a fearful crash, burying nearly 50. A shout of horror rose from the spectators, mingled with the cries of the victims. For a moment nothing could be distinguished but a cloud of dust and plaster. A scene of the greatest excitement and confusion followed. But this was only for a few seconds. Almost immediately the crowd attacked the debris in an effort to release those lying beneath.

The workmen within the grounds who had witnessed the accident, the police and the republican guards, together with quite a number of soldiers, joined in the rescue work. The promenaders forgot their Sunday attire and covered themselves with dirt and grime in tearing away the rubbish with their hands. Wooden beams and poles were brought from the half-finished buildings near by and were used as levers to raise the fallen mass.

The victims first recovered were mostly only the injured, the dead being found later beneath the center of the structure. Messengers were dispatched to bring firemen and sappers with their equipments, and the first body was found after a quarter of an hour's frantic labor. It was that of a little girl about seven years old, whose head was horribly crushed. Victim after victim was brought to light until a row of six mutilated corpses had been placed upon the sidewalk and nearly 40 other persons, some badly and others less seriously injured, had been carried in ambulances or driven to the hospitals. The dead are three men, two women and one child. The weighty plaster towers seem to be responsible for the fall of the structure.

FILIPINO STATESMAN

Is Captured While Sick and Is Conveyed to San Fernando.

Manilla, April 30.—Major General Lloyd Wheaton reports that Senor Paterno, the former president of the Filipino cabinet, was captured in the mountains near Trinidad, province of Benguet, April 25. Paterno recently, through relatives in Manilla, requested and received permission to enter the American lines, but failed to appear. His relatives explained he had been sick a long time, and was an invalid. He was brought to San Fernando on a litter ambulance by soldiers of the Fortieth regiment.

Wilson's Views.

Kansas City, April 30.—William L. Wilson, author of the Wilson tariff bill, while in this city en route from Hot Springs to Nebraska City, said: "It is to be McKinley and Bryan. Mr. Cleveland will not allow his name to be mentioned, and Dewey will not get an opportunity to see himself voted down. Bryan will be nominated, but conditions are so changed that the campaign will be on new lines. Both sides have so many new conditions to confront that the old tactics will not do. I think the Democrats will win. We shall go into the fight solid."

Among birds the swan lives to be the oldest, in extreme cases reaching 300 years. The falcon has been known to live over 102 years.

BUILDING COLLAPSES.

Shocking Disaster to Workmen In a Structure at Birmingham.

Birmingham, Ala., April 30.—By the collapse of the framework of the main building of the Dimmick Pipe and Foundry company in the course of erection at North Birmingham, two men are dead and 11 are injured, at least two of whom will die.

The building was 300 feet long and 100 feet wide. While an immense team was being placed in position on the roof 30 feet above the ground it fell and striking the next beam knocked it down. The second beam knocked down the third, and so on until 26 beams had fallen, causing a general collapse of the structure.

About 30 men were at work on the building at the time, and of this number 13 were on the superstructure went down in the wreckage. Those on the ground floor began to leap out of the doors and windows as soon as the first beam fell, and all escaped uninjured.

The dead are: James McWhorter and David White. William McWhorter, head crushed and internally injured, will die. D. O. Patillo, fractured jaw and concussion of back, will probably die.

Texas Flood Situation.

Waco, Tex., April 30.—The flood situation is very much improved, the destitute and suffering being nearly all provided with wearing apparel and foodstuffs. The principal difficulty the committee of organized charities, who have the distribution of the supplies in charge, are meeting with, is a place to house the homeless. Many houses contain several families, while many are living in tents waiting to see if the predicted overflow of the Brazos materializes. The prospects of the Brazos not overflowing are exceedingly bright. The crop situation in the bottoms is considerably worse than in the fort or deluge several weeks ago, and many of them will have to be replanted.

Methodist Conference.

Chicago, April 30.—The Rev. David S. Monroe, secretary of the Methodist general conference, which meets in Chicago Wednesday, declares that the question of seating of the provisional delegates will bring on the first discussion after the conference convenes. It will require only 139 votes from the 565 regular delegates to rule out the provisional representatives, but it is thought the laymen will get more than the required two-thirds vote of the conference. The proposed admission of women delegates also is expected to cause a warm debate.

Admiral Dewey at Chicago.

Chicago, April 30.—Admiral Dewey, accompanied by Mrs. Dewey and his private secretary, Lieutenant Caldwell, arrived here at noon in a special train over the Baltimore and Ohio railroad. The party left Washington Sunday noon on one of the finest trains that ever left the capital city to participate in the celebration here of the second anniversary of the battle of Manila. Thousands of persons were at the railway station to welcome the admiral and party, who were immediately hurried away to a hotel by the reception committee.

Why Dewey Won't Talk.

Washington, April 30.—Admiral Dewey was seen at his home, just before leaving the city for Chicago, and was asked if he had any statement to make about the presidency. "No," said he, "I think it would be in bad taste for me to say anything of a political nature just at this time. As the admiral of the navy I accepted the invitations to visit Chicago, Jacksonville, St. Louis, Memphis, Nashville and Knoxville, which cities had asked me to be their guests, and I do not wish anything political to enter into the trip."

Bishop Hartzell Preached.

New York, April 30.—Bishop Hartzell, the missionary bishop of Africa of the Methodist Episcopal church in this country, preached at St. Paul's Methodist Episcopal church. He arrived in New York Saturday, having just returned from a tour through west and south Africa. Speaking of the situation in Africa, Bishop Hartzell expressed satisfaction over the success of three great powers, England, France and Germany, in parcelling out the dark continent without war resulting among the nations of Europe.

Mrs. General Wilson's Death.

Havana, April 30.—In the terrible accident at Matanzas which resulted in the death of the wife of General Wilson, governor of the department of Matanzas-Santa Clara, the daughter, who was driving with her, was also burned, though not seriously, while endeavoring to extinguish the flames. The coachman was somewhat burned while assisting. Mrs. Wilson's hands were so badly swollen before her death that it was found necessary to cut the rings from her fingers.

INDICTMENT HELD UP.

Governor Taylor Returns to Frankfort, but Is Not Served.

PROCESS MAY BE ISSUED THIS WEEK.

Document Said to Be in the Possession of Judge Cantrill—Hearing Begun on the Motions For Bail.

Frankfort, Ky., April 30.—Governor W. S. Taylor is here. He was met by a large number of leading citizens at the depot. He stated that he returned to silence the rumors that he was endeavoring to escape indictment. His friends insist that these rumors were started by some one who took advantage of his absence. After attending to the matter of ascertaining whether there is an indictment against him he will return to Washington.

The presence of Governor Taylor in this city was known to the local officers and to those in charge of the prosecution, and the fact that a warrant of arrest was not served upon him is now construed to mean that the indictment in this case will be held up and no process issued on it for several days. The indictment was returned in open court after those against Finley, Powers, Culton and others were returned, but it was not entered as of record and is now understood to be in the possession of Judge Cantrill.

Filled Their Brief.

Washington, April 30.—Counsel for Hon. William S. Taylor and John Marshall, in the contest in the supreme court over the offices of governor and lieutenant governor of Kentucky, filed their brief in the case in the court. After reviewing the various points involved in the case the brief concludes as follows: "We will not attempt any resume of the argument; we have attempted to so divide it as not to confuse it; we simply insist that the pretended 'adjudication,' which is pleaded by Mr. Beckham as the foundation of his action whereby he seeks to take from William S. Taylor and John Marshall the offices to which they certainly had the admitted prima facie right and whereby he seeks to make himself the governor of Kentucky and the chief magistrate of her people is an absolute nullity."

Bail Cases.

Frankfort, Ky., April 30.—Seven of those charged with being either principals or accessories in the murder of William Goebel were arraigned in the circuit court. Those arraigned are Caleb Powers, Henry E. Youtsey, Harland Whitaker, John W. Davis, W. H. Culton, Wharton Golden and Richard Combs, alias "Tallow Dick," colored. Motions for bail are to be made in each case, and motions for a change of venue have been applied for by Powers, Davis, Whitaker and Combs. The large array of witnesses who have been summoned to give testimony were put upon recognizance bonds, and the hearing of witnesses will consume several days.

Beckham's Brief.

Washington, April 30.—Lewis McQuown, attorney for J. C. W. Beckham, filed his brief in the supreme court in the case involving the title to the governorship of Kentucky. On the motion to dismiss, for want of jurisdiction in the supreme court, it is contended that the provisions of the constitution and statutes of Kentucky governing the trial of contested elections for governor, afford "due process of law" within the meaning of the fourteenth amendment to the constitution of the United States.

Holds an Undisputed Claim.

Frankfort, Ky., April 30.—Attorney General Breckinridge enjoys the distinction of being the only state officer in Kentucky whose title is not in litigation. Judge Clifton J. Pratt, the Republican contestant, as anticipated several days ago, quit the contest, and on failure of him to file a supersedeas bond, the undisputed title passed to Breckinridge.

Mortgages in Cuba.

Havana, April 30.—Today the term expired during which claims for the payment of mortgages upon rural and city properties have been held unenforceable at law. The papers assert that a large number will be forced to sell land at auction in order to meet their obligations. Senor Pierra, discussing the question, said: "Additional grace to debtors on city property ought never to have been given. During the war payments of such debts were enforced. Moreover, the value of city property increased 25 per cent during the war, and consequently creditors have every right to enforce their claims."

Barker and Debs.

Cincinnati, April 30.—Joseph A. Par-

ker of Louisville states that there will be over 1,000 delegates here next week for the national convention of the middle-of-the-road Populists. Parker and others have been here in charge of the arrangements for some weeks. The talk among those who are here now is mostly for Barker, although some want to draft Watson against his protest, and still more favor the indorsement of Eugene V. Debs.

WEEK IN CONGRESS.

Interesting Forecast of the Work in the House and Senate.

Washington, April 30.—The feature of the week in the house will be the Nicaragua canal bill, which will be considered Tuesday and Wednesday. The elimination of the section relative to the fortification of the canal removes the objections entertained to it by the friends of the Hay-Pauncefote treaty, but because of that very fact the resentment of some of the Democrats has been aroused. Thursday will be given up to the consideration of the "Free homes" bill and Friday to war claims. Today is District of Columbia day.

In the Senate.

Washington, April 30.—The week will be given up largely to the Alaskan code bill and to appropriation bills in the senate. Senator Hawley, chairman of the committee on military affairs, called up the army appropriation bill today, and when this bill will be disposed of it is probable that the fortifications bill will be taken up. There also will be an effort to secure final disposition of the Alaskan bill. Senator Chandler on Wednesday will ask consideration of the resolution in the case of Senator Clark of Montana. On Thursday the senate will listen to eulogies on the late Representative Baird of Louisiana.

Populists and Bryan.

Philadelphia, April 30.—According to Wharton Barker of this city, who has received the indorsement of some of the Populist state conventions for president, there will be between 800 and 1,000 delegates at the Cincinnati convention. Asked as to the effect of his nomination for the presidency by the Populists on Mr. Bryan's candidacy, Mr. Barker said: "There can no longer be a doubt in the mind of any one who considers the situation that at least 1,500,000 of the 2,000,000 Populist votes cast for Mr. Bryan in 1896 will this year be lost to him and cast for the presidential candidate of the People's party. The Democrats will probably give the nomination to some one else, and thus invite the gold Democrats back into the fold."

Great Railway Strike Imminent.

Buffalo, April 30.—The striking employees of the New York Central have given the company until 1 o'clock to grant their demands. If the concessions are not made by that time, it is the intention of the strike leaders to extend the strike, and they predict that it will be the largest in the history of railroads of the east. They claim that all they have to do is to remove the restraint under which they have been holding railroad men, and that it will then run through the entire New York Central system in the state and cripple nearly every road entering Buffalo.

Due to Drink.

Newark, N. J., April 30.—Edward Norley, 45, went to the home of C. W. Stuart, where his wife is employed as a domestic, and attempted to kill her. He entered the kitchen, threw her on the floor, drew a razor from his pocket and inflicted seven gashes about her neck. Leaving her, as he supposed, to die, he went into the rear yard and cut his own throat with the same weapon. He died in an hour. The woman will recover.

Failed to Agree.

Denver, April 30.—The jury in the case of Attorney W. W. Anderson, charged with an attempt to kill H. H. Tamm, one of the proprietors of the Denver Post, whom he shot on Jan. 13 last, was unable to agree upon a verdict and was discharged at noon.

To Be Courtmartialled.

Berlin, April 30.—Captain Kannenberg, who was charged with having committed a number of cruel deeds in German East Africa, has arrived here to be tried by courtmartial.

CLEAR OF THE BOERS.

British Returning From Their Dast Through Southern Free State.

TO RECUPERATE AT THE CAPITAL.

Advance Toward Pretoria May Be Delayed Indefinitely—English Forces to Garrison Thaba N'Chu.

London, April 30.—The only dispatch from Lord Roberts was the usual list of deaths and sicknesses. The flood of newspaper dispatches describing the recent operations throws no light whatever upon the present position of affairs or upon the great question as to when the main advance is to begin. The Standard's announcement that General French's cavalry is returning to Bloemfontein is clear proof that there is no further hope of catching the retreating Boers, and the London papers are beginning to display impatience at the practical failure of the elaborate operations of last week.

The Standard says: "It is disheartening to find that these elaborate maneuvers have had so small a result."

The Daily Chronicle remarks: "We are reluctant to criticize Lord Roberts, but it is impossible to shut our eyes to the fact that, during the last 10 days, we have gained very little from our enormous display of force."

Without doubt these operations have been of a very exhausting nature, and will entail further delay. The Bloemfontein correspondent of The Times, writing on March 3, after the Paardeberg affair, describes Lord Roberts' army as a "wreck" because it was without horses and without transport. The Bloemfontein correspondent of The Post speaks now of the urgent need at present and always of more horses.

A special dispatch from Thaba N'Chu, dated Thursday, describing the fight at Israel'spoort, which is about seven miles west of Thaba N'Chu, says: "Three hundred Boers were strongly intrenched on two kopjes. The place of honor was given to the Canadians, who advanced very cleverly under their dashing commander, Colonel Otter. The Boers reserved their fire until the Canadians had reached the wire entanglements. Then they opened with a terrific hail of bullets. The Canadians, however, had taken good cover, and were not greatly damaged. They were ably supported in the assault by the Grahamstown horse. Successive rushes brought them right up to the kopjes, when Colonel Otter was struck twice, one bullet inflicting a nasty but not dangerous wound in the neck, and the other tearing the bandages from his shoulder. But he still cheered his men on until the kopjes were carried. The Boers bolted. The British losses were 20 in killed and wounded."

On occupying Thaba N'Chu the British found the stores and houses all looted by the Boers. The natives complain of having their horses and cattle stolen and of cruel treatment. The English residents were subjected to taunts and insults.

Commandeered All Forage.

Bloemfontein, April 30.—The recent operations have tended to clear the military situation. General Pole-Carew's progress through the country has brought home to the Free Staters the fact that the policy of leniency has been abandoned. Besides seizing the stock of farmers who, after having given their submission, were found fighting, he commandeered all the available forage, giving receipts for the same, and this will prevent the Boers using the resources of the country. The Boers are now evidently returning in order to concentrate for opposing the British advance.

To Hold Thaba N'Chu.

Bloemfontein, April 30.—It is understood that the British will continue to hold Thaba N'Chu owing to its strategic importance, and especially with a view of checking future raids. The commandoes that had recently been operating in the direction of Thaba N'Chu are melting away, the Boers quietly returning to their farms, and many of them taking the oath of allegiance.

Thaba N'Chu, April 30.—The adjacent country is now clear, the Boers having retired toward Ladybrand. There are interesting developments ahead. It is reported here that Commandant Olivier is wounded.

Troops Will Recuperate.

Thaba N'Chu, April 30.—The British troops, now that the adjacent country is cleared of the Boers, who trekked hurriedly in the direction of Ladybrand, will recuperate for a short period.

The Country Gentleman, an agricultural journal, says of the imperial form of government provided for Porto Rico: This is very much the kind of self-government that Spain offered to Cuba—she retaining the right of appointing a majority of the upper house of the Cuban Legislature. That kind of self-government did not then suit the people of the United States. Perhaps it will be better for the people of Porto Rico to have us for despots than to have Spain. But the most serious question raised by such a program of colonial empire relates to its effect not on the subject peoples, but on us, their rulers.

SAVED TAXPAYERS NICE SUM.

State Board of Equalization Induced to Lower Their Figures on Mason County's Assessment.

Judge Newell, Assessor Taylor, Deputy County Clerk A. F. Wood and Squire Williams visited Frankfort Friday where they went to confer with the State Board of Equalization in regard to Mason County's assessment.

The board proposed to increase the assessment of lands and personalty 15 per cent. and of town lots 3 per cent., but the gentlemen named succeeded in getting more favorable action, and the increase on lands and personalty was fixed at 10 per cent. and that of town lots at 2 per cent.

The saving to the county in taxes by this action amounts to about \$5,000, and the committee's expenses to Frankfort were only \$40.

The increase by the State Board makes the county's total assessment this year \$10,047,920, an increase over 1899 of \$100,041, which comes mainly from the assessment of the two national banks.

MASON REPUBLICANS

Instructed for Pugh for Congress and Capt. Cochran for Delegate to the National Convention.

The mass meeting of Mason County Republicans Saturday afternoon was not very largely attended.

Mayor W. E. Stallcup, the Chairman of the County Committee, was elected Chairman of the convention. Mr. B. F. Clift was the only other one placed in nomination for Chairman, but he declined the honor.

Editor Davis was nominated for Secretary, but he firmly declined on the ground that he already had his hands full. Then Mr. W. D. Cochran was nominated, but he declined, and nominated Mr. W. Henry Wadsworth. Mr. Wadsworth was elected.

Mr. W. D. Cochran, Mr. Geo. Crawford and Captain John S. Wells were appointed a committee to select delegates to the Ashland convention on Wednesday and draft resolutions. After being out a short time they returned and reported the names of about 100 delegates to the Ashland convention and added all other good Republicans of the county. They also reported lengthy resolutions indorsing all of President McKinley's official acts, Congressman Pugh for "his patriotic support of the National Administration," all of Mr. Taylor's acts as Governor and denounced the Goebel law. The delegates to the district convention were instructed for Pugh for Congress and for Captain Horace J. Cochran for delegate to the National convention.

During the meeting Mr. Allan D. Cole made a brief speech casting in his lot with the Republican party. Judge Wadsworth welcomed the new recruit, saying that while "the lamp holds out to burn the vilest sinner might return."

Previous to the mass convention the new precinct committeemen of the county met at the St. Charles Hotel and organized by electing Mayor W. E. Stallcup Chairman, Mr. W. D. Cochran Secretary and Mr. Henry Ort Treasurer.

A Night of Terror.

"Awful anxiety was felt for the widow of the brave General Burnham, of Machias, Me., when the doctors said she could not live till morning," writes Mrs. S. H. Lincoln, who attended her that fearful night. "All thought she must soon die from Pneumonia, but she begged for Dr. King's New Discovery, saying it had more than once saved her life, and had cured her of Consumption. After three small doses she slept easily all night, and its further use completely cured her." This marvelous medicine is guaranteed to cure all Throat, Chest and Lung Diseases. Only 50c. and \$1. Trial bottles free at J. Jas. Wood & Son's drug store.

KEHOE THE MAN.

Comments of the Press on His Candidacy. Believe He Can Redeem the District.

Ewing Inquirer: "Prominent among pleasant experiences of the publisher is the authority to announce for office an aspirant whose capability is in keeping with the office he seeks; this application can be consistently applied to the young statesman of Mason County, James N. Kehoe, whose announcement for Congress in this, the Ninth district, will be found in the proper place. While yet a young man, he is endowed with natural leadership, a born statesman and campaigner, whose presence in a county during a heated conflict causes consternation in the ranks of the contending party. In his own county he has been a most conspicuous leader in the bitter contests that have been waged, and in the past bitter and hard-fought battle he was prominent throughout the State, and at Louisville he was chosen by Democracy's martyred leader as spokesman for the northern part of the State, and during the siege at Frankfort his wise counsels were sought. The common and true statement, 'He is the man to retire the invincible son-in-law of Morgan Thomas,' is on the point of every tongue, and we can see no just cause why his nomination shall not be by acclamation and, with this done, the old Ninth will again be truly represented in the halls of Congress."

Cynthiana Times: "Jas. N. Kehoe, of Maysville, is a candidate for the Democratic nomination for Congress in this district. He will make a winning race if nominated, and indications point to his pole being long enough to reach the periscope."

Western Argus: "Hon. James N. Kehoe, of Maysville, has announced himself a candidate for the Democratic nomination for Congress in the Ninth district. He is a deserving man for anything he aspires at the hands of the Democratic party. He has been a faithful worker."

Mt. Olivet Advance: "It is with pleasure that we print in this issue of the Advance the announcement of Hon. J. N. Kehoe of Maysville, as a Democratic candidate for Congress in this district. Mr. Kehoe is one of the leading Democrats in this section, and in our opinion is the only man who can carry Democracy's banner to victory in November. Two years ago he was defeated for the nomination by Hon. Mordecai Williams of Boyd County, but instead of sulking in the ranks, as is the case with too many of our defeated candidates, he took the lead and worked untiringly for the election of his successful opponent. In his last race, Robertson County was for him, and we believe that he will again receive her votes in the coming convention. The Democracy of Robertson should arise as one man and give him a unanimous indorsement. Let our slogan be 'Kehoe and Victory.'"

MEETS WITH APPROVAL.

The Move to Have a Fair in This City in the Early Fall—Some Good Suggestions.

MAYSVILLE, KY., April 30th, 1900.

Editor Bulletin: The notice published in a recent edition of your paper asking all those interested in the organization of a company to hold a fair upon our beautiful grounds in the early fall to meet at the Council chamber on Monday, May 7th, at 2 o'clock for the purpose of forming an association, meets with my approbation, and thinking perhaps to print my willingness to assist might stimulate others and thus work up a preliminary interest which would boom the proposition to the point of having a large number of our citizens, both in Maysville and in the county, attend, thus making the way clear to launching the project and start it upon a sure way to success.

If you will pardon me I shall advance a few ideas which might tend to bring about this desired end. A fair to be successful must be run upon business-like principles. Give the patrons everything advertised, have the admission fee low, take particular pains to look after the comfort of stock and owners and have the premiums most liberal; for instance, speed rings for local roadsters, both pacing and trotting, special running races. Lay particular stress on stock rings by having the premiums worth coming miles to compete for. Make the Floral Hall a great feature and by money inducements on every known domestic product compel a competition which proper arrangements, fair judgment and liberality can bring out.

There are many side attractions and features of amusement which could be induced to appear and there are very many which should not be allowed. Let the fair be run morally, catering to the tastes of good people, who are largely in the majority and do so desire delightful places of resort to which they can go with wife and children to enjoy the wholesome pleasures of life.

Yours &c.

MR. D. H. CONN, of Newport, is the inventor of a device that he believes is certain to revolutionize the manufacture of ice. By his process ice is manufactured without the use of either ammonia or distilled water. Water taken from the gutter can be made into a solid mass of pure ice by his revolving process. The hollow space left by the present process in the ends of blocks of ice is remedied by Mr. Conn's process, the block being solid when taken from the mold.

CINCINNATI TOBACCO MARKET.

The Usual Spring Lull Still Prevails—Very Little Fancy Goods Now Being Offered.

The Cincinnati Leaf Tobacco Warehouse Company says:

"The lull that usually affects the tobacco market adversely in the early spring, and came this year with the first week of the present month, is still with us. While the winter order tobacco is not materially hurt, still the condition of it is not desirable. Quite a few hogheads priced in February and March are opening somewhat stained, though otherwise in fair condition; still the uncertainty as to how long they will keep is materially affecting prices, and all such tobaccos meet a slower market as compared with a month ago. The short bright trashes, when in dry condition, sell for full prices, and if there is any change in the market on these sorts we think it is for the better. Anything in this line in soft condition, however, meets an easier market."

"Very few fancy lugs are being offered; these will come later in keeping order. There is practically no change in the market for good to fancy leaf, still top prices are less frequent; this, however, is at least partly explained by the small offering."

"Good to fine old leaf is in moderate demand at fairly good prices, and, while there is more life in the bidding for these grades, it requires excellent merit to bring good prices. The commoner grades of old are not in favor with the buying element, and in most instances appear as neglected. By comparison these appear to be the cheapest tobacco on the market."

"A few hogheads of redried new were offered the past week, and when these were reached the bidding was spirited, and prices realized clearly demonstrated that new tobacco in keeping condition is appreciated, and buyers are willing to pay good prices for it."

CLAIM AGAINST TURKEY.

ultan Will Probably Settle Through Private American Contract.

Constantinople, April 30.—The porte has not yet replied to the note handed to Tewfik Pasha, the Turkish foreign minister, by the United States chargé d'affaires, Mr. Lloyd Griscom, regarding the indemnity claim, and the situation is unchanged. It is believed in some quarters that a settlement will yet be made by means of some arrangement with private American contracts, concealing the actual payment and thus relieving the Ottoman government from admitting responsibility for the losses occasioned at the time of the massacres.

"All Birds Look Like Chickens to Me!"

There is likewise a similarity in the appearance of most ICE CREAM FREEZERS. But there's a difference—a big difference—which you may discover by experimenting with the various kinds. It costs something, though—both time and money—this experimenting business. Most people prefer to take the advice of a friend tried and true. Consult us. We offer the best makes, but especially recommend the "Lightning" for easy running, quick freezing and practical results. This freezer has cedar pails with electric welded wire hoops, which are guaranteed not to fall off; drawn steel bottom cans which will not break or leak, and new automatic twin scrapers, insuring positive and continuous scraping of frozen cream from side of can. We have it in all sizes.
